**PLAN**

**STEP 1:** Briefly describe components of CAREER Education Plan.

[Blank lines for description]

**STEP 2:** Choose your Broader Impacts goals and objectives.

*Pick one or more of these from the NSF Guidelines (2013):*

- Full participation of women, persons with disabilities, and underrepresented minorities in science, technology, engineering, and mathematics (STEM)
- Improved STEM education and educator development at any level
- Increased public scientific literacy and public engagement with science and technology
- Improved well-being of individuals in society
- Development of a diverse, globally competitive STEM workforce
- Increased partnerships between academia, industry, and others
- Improved national security
- Increased economic competitiveness of the United States
- Enhanced infrastructure for research and education

**CREATE**

**STEP 3:** Create activities based on your goals and objectives.

**Goal 1:**

EVALUATE

STEP 4: Choose an evaluation method that fits your goals, objectives, and activities

- You might want to consider hiring a professional evaluator to design and/or evaluate your broader impacts activities.
- If necessary, choose an evaluation method for each part of your broader impacts plan.
- Some evaluation methods to consider are surveys, interviews, observations, tests, and case studies.

Goal 1: ____________________________________________________________________________
Goal 1 Activity: _____________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
Goal 1 Evaluation Method: ___________________________________________________________________
